Corrections to our former paper "Bifurcation curves of a family of one-dimensional bi-quadratic polynomial maps, depending of the complex variable, and two real parameters".

Hisashi Ishida Tsuyoshi Itoh Department of Mathematics, Faculty of Science, Kyoto Sangyo University, Kamigamo, Kita-ku, Kyoto, Japan

2011 Nov. 21

We make several corrections to our former paper "Bifurcation curves of a family of one-dimensional bi-quadratic polynomial maps, depending of the complex variable, and two real parameters" .

Keywords : attracting fixed points; bi-quadratic polynomials.

1. Corrections

- (1) (p.4120) Append the sentence "except (a, b) = (-3/4, -3/4)" to the last of the statement of Theorem2.
- (2) (p.4124,left) Replace " $1 \ge 4(1 \sqrt{ab})$ and s(-1) > 0" by " $1 \le 4(1 \sqrt{ab})$ and s(-1) > 0".

(3) (p.4124,left) Append the sentence "except (a, b) = (-3/4, -3/4)" to the last of the statement of Case 2.
